

CLIENTS

Trusted Across Diverse Growth Ecosystems

Stellar Wave partners with enterprises, consumer brands, performance institutions, and large-scale sporting properties that demand structured strategy and measurable execution.

Our portfolio reflects cross-sector intelligence, disciplined deployment, and long-term partnership mindset.

Enterprise & Engineering

Technology and engineering-led companies operate in high-trust environments where authority, clarity, and performance systems determine growth.

Snowforce

ERP Solutions for Infrastructure & Construction Enterprises

Snowforce delivers enterprise resource planning solutions tailored for infrastructure and construction companies. Operating in a complex B2B ecosystem, the brand requires knowledge-led positioning, authority-driven communication, and structured digital visibility to align with long sales cycles and technical decision-making processes.

TAV

Australian Mid-Drive Motor Technology Manufacturer

TAV is an Australian-based engineering company specializing in advanced mid-drive motor systems. Positioned within the evolving electric mobility ecosystem, the brand demands market education, technical credibility, and performance-focused communication frameworks to strengthen its global positioning.

Consumer & Retail Brands

High-engagement markets require precision in visibility, brand perception, and revenue-driven communication systems.

Humming Bird

Children's Magazines, Activity & Stress-Free Colouring Books

Humming Bird creates educational and stress-relief content for children through thoughtfully designed magazines and activity books. The brand operates in a trust-driven parent-focused market, requiring engaging communication, product visibility, and consistent digital storytelling to strengthen brand recall and purchase intent.

Cycle Studio LLP

Premium Bicycle Retail & Service Brand

Cycle Studio LLP is a high-end bicycle retail and service outlet catering to enthusiasts and performance riders. Positioned in a niche lifestyle segment, the brand requires strong product positioning, retail branding clarity, and conversion-focused digital strategies to drive both store visits and service engagement.

Annanagar Auto Service

Authorised HP Automotive Dealer

Annanagar Auto Service is an authorised HP dealer operating in a competitive automotive service market. The brand requires structured local visibility, trust-building communication, and consistent customer engagement systems to strengthen regional market positioning.

Performance & Training Ecosystems

Competitive training institutions demand high-impact digital presence supported by structured consistency and community-driven growth.

Spitfire Kickboxing Academy

Professional Martial Arts & Competitive Training Institution

Spitfire Kickboxing Academy trains athletes across multiple competitive levels. Operating in a performance-driven environment, the academy requires energetic digital positioning, disciplined communication cadence, and structured growth systems to strengthen athlete participation and brand authority.

Associations & Federations

Institutional sporting bodies require governance-aligned communication, credibility management, and scalable participation frameworks.

TNCA

Tamil Nadu Cycling Association (Under SDAT & CFI | 60+ Years Legacy)

TNCA is a long-standing state-level cycling association responsible for athlete development and event governance. The institution requires structured digital communication systems, event visibility amplification, and stakeholder-aligned positioning to strengthen participation and institutional credibility.

TNSKA

Tamil Nadu Kickboxing Association (Under WAKO India | 1000+ Athletes)

TNSKA oversees kickboxing development across Tamil Nadu, supporting athletes competing at state, national, and international levels. The association requires disciplined event communication, athlete engagement systems, and structured digital amplification to support large-scale participation.

TNAA

Tamil Nadu Athletic Association

TNAA governs athletics development within the state framework. Institutional positioning, event communication clarity, and consistent stakeholder visibility are critical to strengthening athlete outreach and ecosystem growth.

Championships & Competitive Properties

Large-scale sporting properties require precise execution, brand architecture discipline, and high-intensity digital amplification systems.

TCL – Tamil Nadu Cycling League

State-Level Franchise Cycling League

TCL operates as a competitive league format featuring eight district-based teams across Tamil Nadu. The property demands league identity architecture, sponsorship-ready positioning, and structured digital amplification to build audience engagement and competitive visibility.

National Kickboxing Championship 2025

1,000+ Athletes | Pan-India Participation

A large-scale national-level championship bringing together athletes from across India. The event requires structured communication governance, participation growth strategy, and high-volume digital deployment to ensure operational visibility and competitive credibility.

Track Asia Cup 2026 – Chennai

International Athletic Event | 10 Asian Nations Participating

A landmark international event hosted in Chennai featuring participation from ten Asian countries. The property demands international-standard event positioning, multi-layered digital amplification, and structured stakeholder communication systems.
